STATEMENT OF FACTS UNDER 37 C.F.R. §1.48(a)

I, Stephen F. Linder, the inventor named for the above identified application declare that:

1. The subject matter of the above-identified application was developed through the interaction and collaboration of both the Applicant and Craig H. Mallery, employees of Xerox Corporation.
2. During initial discussions regarding the scope of the invention with Michael J. Nickerson, Attorney for the Applicant, in May of 1997, Applicant noted that Craig H. Mallery was inadvertently, without deceptive intent, omitted from the initial inventor list provided to the Xerox Patent Department.

3. After these initial discussions, the Applicant and Craig H. Mallery, both reviewed and assisted in the preparation of the above-identified application.
4. Through an administrative error without deceptive intent the information conveyed by the Applicant to the Attorney for the Applicant in May of 1997 was not entered into the inventor database record for the above-identified application.
5. The above-identified application was filed on an expedited bases without the inventor signature because of perceived and actual competitive activity in this area of technology by industrial concerns.
6. On June 19, 1997, the paperwork, accompanying the filed patent application, which provided the information regarding inventorship was generated directly from the inventor data base record for the above-identified application.
7. The omission was discovered in July of 1997 when the Attorney for the Applicant began to prepare the formal Declaration for the above-identified application.
8. It is thus entirely inadvertent, through error and without any deceptive intention that the above -identified patent application was filed in the name of Stephen F. Linder wherein the inventors are actually Stephen F. Linder and Craig H. Mallery.

The undersigned, as the originally named inventor, declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both under 35 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the patent.

Further declarant sayeth not.
